The activities of the Committee this year were as follows:

- **Assisted with the review of learning objectives and assessment plans for all majors.**
  All undergraduate majors, whether departmentally-based or not, were required to submit learning objectives for the major, and a method for assessing at least one of them during the 2010-11 academic year. These plans were submitted at the beginning of fall quarter. A subset of the Assessment Subcommittee worked with staff from DUE to provide feedback on each of these plans.

- **Created course-level learning outcomes for all GE categories.**
  We spent a good deal of time this year creating learning outcomes that would qualify a course for inclusion in each of the GE categories (except the writing category). We started with the learning outcomes at the category level, and framed course-specific learning outcomes from those. These will be used by the Policy Subcommittee to determine whether a course qualifies for GE inclusion, and can be used by faculty developing a course that they hope to have qualified for credit. They also will be used in the future to assess student learning after completing the GE requirements.

- **Participated in campus visit of Professor Richard Light, assessment expert from Harvard.**
  Professor Richard Light, an assessment expert from Harvard University, visited the campus on April 3-5. The Assessment Committee had a productive meeting with him on April 4, and several committee members interacted with him at other times during his visit.

- **Participated in campus visit of the WASC team.**
  Several members of the Assessment Committee met with members of the WASC visiting team on April 13 to explain to them our assessment activities.

- **Assisted with review of assessment grant applications.**
  A subset of the Assessment Committee reviewed grants submitted to the Assessment Grant Program, to help DUE make decisions about what to fund.

Membership:
Jessica Utts (Chair, CEP representative)
Lisa Naugle (Arts)
Rudi Berkelhamer (BioSci)
Haris Catrakis (Engineering)
Jonathan Alexander (Humanities)
Dan Gillen (ICS)
Alison Holman (Nursing Science)
Donna Schuele (Social Ecology)
Louis Desipio (Social Sciences)
Phil Collins (Physical Sciences)
Christopher Schwaerz (Business)
Mahtab Jafari (Pharm Sciences)
Lisa Grant Ludwig (Public Health)
Judy Shoemaker (Ex Officio)
