Paul Merage School of Business		AR	X				AR					AR	X		
School of Physical Sciences				AR	X				AR					AR	X
School of Social Ecology			AR					AR	X				AR		
School of Social Sciences		AR					AR	X				AR			

This table shows the integration of undergraduate program assessment with the program review process. It represents our long-term commitment to undergraduate program assessment and the aim of institutionalizing assessment at this level. The table details the academic years when each School will be reviewed and when assessment reports are due by each program within the Schools. Beginning AY 2012-13, programs are to submit an assessment report twice between program reviews, at years four and nine—reports are due every five years. Department chairs are responsible for submitting reports for each of their undergraduate programs. Reports are due at the end of the given academic year, by September 15. Reports will be submitted to UCI's Assessment Information Management System (AIMS) and then reviewed by the Assessment Committee.
